# A b o u t t h e company

## Introduction:

St.Stone Medical Devices Private Limited was incorporated in 2012 and start it's planning for one of the biggest project in North East India. Company has started it's Official venture in 2014 by setup of Manufacturing Plant in North East India. Although as a new born company having vast vision and mission to achieve, has been granted the licence for manufacturing and Distribution of Medical Devices First time in North East India by CDSCO & State Drug Authority. We are into manufacturing & assembling of medical devices having vast range which falls under Interventional Cardiology Consumable, Nephrology, Aneasthesia and General Consumables.

## Quality Accreditations:

We are Quality Certified ISO 13485:2016 and ISO 9001:2015 Accreditation Body., CE Certification (Comp.), WHO-GMP Certification(Comp.) we are proud member of Pharmaexcil, All India Medical Device Association.

## Research, Planning and Development:

As a growing company we don't have to focus only on development. But we are working on research, planning and development. Our Hardcore team member are from Developed Companies from the same industry. who join us to make this happen that quality is the basic need in healthcare industry which help us to compete by making different strategies.

## Manufacturing and Distributions:

As an growing company we need to think all the parameter which are essential for the Manufacturing of Medical Devices under WHO-TRS compliance. we although understand the major and minor necessities of Manufacturing and we step on it.

## Manufacturing Area:

Our Manufacturing is as per standard of WHO Guidelines. Having 0.03 Um AHU Planted in Assembling, Manufacturing Area and Testing Lab. and 0.050mAHU in Packaging, Sterilization and other areas of the premises.

## Packaging Area:

Our Packing is as Classified into Class II as per WHO-TRS. Packaging Material is trans passes through Static Passboxes for much safety of the pouches and labels for not mixing and contaminations.

## Sterilization:

St. Stone Having in house facility for Sterilization of Medical Device under EO Category. Sterilizer Calibration and Validation is been done in every intervals so we can assure on best quality for longer shelf life.

## Distribution:

We are fastest growing distribution and exporter of Medical Disposable Consumable products. Especially in the sector of Healthcare Sector, Dialysis Consumables, Interventional Cardiology, Critical Care, and General Disposable to around 20 countries mainly African/Middle East/Asian countries, from last 6 years

## St. Stone Medical Vision:

St. Stone Medical Devices Vision is to provide Quality Healthcare at affordable price to the people and making healthcare sector to be health assured. St. Stone Medical Devices is not only believing into making better Healthcare business, But it believes into making Healthier Healthcare Industry for which St. Stone Medical Devices is working into.

St.Stone Medical Mission: St. Stone Medical Devices is having aim to be the successful partner with many Healthcare Institution. The key to our success is our high degree of innovative drive coupled with the creativity of our highly qualified workforce

## DOUBLE/TRIPLE LUMEN CATHETER KIT

### Set Contains:

- » Polyurethane HD Straight/ Curve Catheter
- » Nitinol Core Guidewire with Advancer "J" Tip 70cm
- » Catheter Protector COVER
- » 18Ga - 7cm Introducer needle
- » 5ml Guiding Syringe
- » 5ml Disposable Syringe
- » Vessel dilators
- » Scalpel #11
- » Injection Cap
- » Patient Identification sticker
- » Drape Sheet
- » Suture Needle (3/8 Reserve Cutting) 26mm

PRE-CURVE CATHETER (DOUBLE LUMEN) ALSO AVAILABLE

# Platinum+<sup>TM</sup>

Permanent Catheter Kit (Long Term Hemodialysis Catheter)

## LONG TERM HEMODIALYSIS CATHETER KIT

The Catheter is made from premium silicone, which has excellent biocompatibility. The dacron cuff can protect immigration of catheter and reduce the chance of CRBI (Catheter Related Bloodstream Infections). The silicone material makes catheter more floppy, hence it can minimize the trauma to the vein and reduce the incident of clot.

### Kit Contains:

- » Silicone Catheter
- » Valved Peelable Introducer
- » Introducer Needle
- » Adhesive Wound Dressings
- » Scalpel
- » Guide-wire
- » Tunneler
- » Syringe
- » Gauze Sponges
- » Vessel Dilator
- » Needle with Suture
- » Heparin Caps

Type	Description	Product Code

## Hemodialysis Compound Catheter Kit

### DOUBLE/TRIPLE LUMEN CATHETER KIT

#### Set Contains:

- » Haemodialysis Double Lumen Straight/Curve Catheter
- » Nitinol Guidewire with safety tube Advancer "J" Tip 70cm
- » Introducer Needle 18G
- » Guiding Syringe 5ml
- » Disposable Syringe 5ml
- » Vessel Dilators
- » Scalpel #11
- » Injection Caps Heparin
- » Patient Job Card
- » Drape Sheet
- » SUTURE Non absorbable 3/8 Reverse Cutting (Black Braided Silk) 26mm
- » Wound Dressing Pad
- » Surgical Glove (Pair)
- » Surgical Hole Sheet (90x90cm)
- » Gauze Swap
- » Cleaner Fome with Handle
- » Cotton Ball

Hemodialysis Catheter (Short Term Hemodialysis Catheter)

## DOUBLE LUMEN CATHETER

An Optimum Compromise between competing Factors. Where a balance between:

- » Flexibility & Firmness
- » Softness and anti kinking
- » Material and durability
- » Size and flow

### Catheter Set Features:

- » Long tapered tip dilators with stopper to avoid over insertion.

### Set Contains:

- » Polyurethane Catheter
- » Vessel dilators
- » Catheter Protector Pouch
- » Patient Identification sticker
- » Injection Cap

# Starline™

Blood Line Set For Hemodialysis

## FEATURES

- » Medical grade PVC tubing
- » ETO sterilization
- » 100% test for each blood line set
- » Guarded access ports reduce infection risks
- » Superior quality, unique design and high performance
- » Material Options : DEHP PVC Compound & DEHP-FREE PVC Compound
- » Male/Female Luer locks in compliance with international standards & regulations

# Shinecath™

Single Lumen Dialysis Catheter

## SHORT TERM HEMODIALYSIS CATHETER

An Optimum Compromise between competing Factors. Where a balance between:

- » Flexibility & Firmness
- » Softness and anti kinking
- » Material and durability
- » Size and flow

## Catheter Features:

- » Soft tip
- » Small rotating fixation wing
- » Extension lines stand repeated clamping and de-clamping
- » Multiple threads female luer end
- » Injection caps
- » Variety of sizes, lengths and shapes

# Shinewire™

Stainless Steel/Nitinol Guidewire

## PRODUCT FEATURE

- » Accurate Measurement for Catheter Tracking
- » Easy to insert and Removal
- » Smooth Tip for insertion
- » Angle and Straight Tip

- » Smooth Advancer for Dispensing of Guidewire
- » Kink Resistance
- » Variety of sizes, lengths and shapes.
- » Safety Cover for Unwanted Hazard Damage

# Starfist™

## AV Fistula Needle

An arteriovenous (AV) Fistula is an abnormal connection between an artery and a vein normally, blood flows from your arteries to your capillaries to your veins. Nutrients and oxygen in your blood travel from your capillaries to your veins. Nutrients and oxygen in your blood travel from your capillaries to tissues in your body. With an arteriovenous fistula, blood flows

directly from the artery into a vein by passing some capillaries.

Fistula needle are a crucial link between the patient and the dialysis machine. for this reason, all needles have to meet the requirements of highest quality, safety and comfort-both from the user's as well as from the patient's perspective

### STARFIST™ AV FISTULA NEEDLE

# CAPD Accessories

## MINI CAP

*For Use in Peritoneal Dialysis System*

Sterilization and occlusion of prolonged short tube orifice for peritoneal dialysis patients

## TITANIUM CLIP

The connection between the peritoneal dialysis catheter with internal diameter of 2.64mm-3.3 mm and external diameter of 4.88 mm-5.08mm and the external extension catheter for medical institutions in peritoneal dialysis treatment.

## TRANSFER SET FOR CAPD

Used to connect the peritoneal dialysis catheter to the peritoneal dialysis fluid pipeline to prevent or permit the flow of peritoneal dialysis fluid.

## PRODUCT CODE: MCPD08

*Caps with povidoneiodine (mini cap)*

In peritoneal dialysis, it is used for plugging and disinfection of external transfer set interface.

## PRODUCT CODE: STSTC

Locking titanium catheter adapter The connect peritoneal dialysis catheter and extended transfer set.

## EXTENDED TRANSFER SET WITH TWIST CLAMP

The connect peritoneal dialysate system and peritoneal dialysis catheter for patients.

# CENTVENT™

## Central Venous Catheter And Kit

The CVC is designed for placement in the Jugular Vein in critically ill patients. It's designed for long term vascular access. For central veins catheterization (subclavian, Jugular Veins) according to Seldinger method. Atraumatic metallic conductor with a J-shaped tip Prevents the vessel wall from injury.

### CENTVENT™ CENTRAL VENOUS CATHETER AND KIT

#### KIT CONTAINS:

- » Central Venous Catheter
- » SS Guidewire with Advancer "J" Tip 50cm
- » Wound Dressing Pad
- » 18Ga - 7cm Introducer needle
- » 5ml Guiding Syringe
- » Vessel dilators
- » Suture Wing
- » Scalpel #11
- » Injection Cap
- » Patient Identification sticker

## Peripherally Inserted Central Catheter Kit

### KIT CONTAINS:

- » PICC Catheter
- » Fastener: Catheter Clamp
- » Infusion Connector
- » Injection Needle
- » Introducer Needle
- » Scalpel
- » Flat Nip

CENTVENT PICC is a peripherally inserted central catheter (basilic vein, cephalic vein, median cubital vein...) in biostable polyurethane available as single or double lumen catheter.

Peripherally inserted central venous catheter for mid- to long-term (>30 days) IV therapy and in particular :  
Administration of hyperosmolar solutions, antibiotics, chemotherapy and other drugs which are irritant to the peripheral vessels  
Temporary catheterisation while awaiting insertion of a long-term catheter with sub-cutaneous cuff or one with an implantable port  
Patients with injuries or burns to the chest and neck, patients who are to undergo radiotherapy on this

## Epidural Set

Epidural catheter is specially designed for continuous anesthesia and pain relief therapy. Catheter is made from unique plasticizer free polymer with excellent bio-compatibility. Flexible andatraumatic soft tip with three lateral eyes. Catheter is printed to determine the depth of insertion and accurate placement of catheter in the epidural space. Luer lock twist connector. Crystal clear catheter with radio opaque line.

### KIT CONTAINS:

- » Epidural/tuohy Needle
- » Luer Syringe
- » Detachable Connector

- » Epidural Catheter
- » Threading Assist Guide
- » Hydrophobic Filter

Biopsy Needle

Biopsy Needle is a cutting semi-automatic biopsy needle, easy to operate, spring-loaded and obtain complete biopsies. Delta slot cutting is intended for cutting biopsies, marked by graduation on the external needle is convenient for depth reference. Core needle is available, is convenient for operate under Buntrasonic or CT.

## FEATURES

- » Small size and lightweight design give you better handing and control
- » High velocity throw and precise needle contribute to consistent, high quality samples

## SKINSTAP™

### DISPOSABLE SKIN STAPLER

**The Helping Hand Of  
Surgeon In Stitching**

Size : 35 | Code : ST35W

- » SPECIALLY DESIGNED FOR EASE OF OPERATION
  - » DISPOSABLE SINGLE LISE PRODUCT
  - » NO JAMMING /EASY OPERATING SYSTEM
  - » VISIBLE CARTRIDGE TO CHECK REMAINING STAPLER PINS
  - » BOLD MARKING AT 15/25/35 STAPLE ALIGNMENT (THE ASSISTANT OF SURGEON)
  - » ONE CLICK FIRE
- 

## SKINSTAP™

### DISPOSABLE SKIN STAPLER PIN REMOVER

**Removal of Surgical Skin Staples**

Ref. No. : SSPR

Advantages:

- » These staple removers are compatible with any brand of skin staple
- » They are quick and easy to use
- » They reduce pain and infection risk.
- » This staple remover is simple to use and require minimal maintenance.
- » Staple Remover is made from 100% pure Stainless Steel
- » Staple Remover is sterile and ready to use

## STARKIT Manifold

High & Medium Pressure  
Stopcocks and Manifolds  
Withstand 500 psi

## Mercury+™ Bone Marrow Aspiration Needle

### PRODUCT FEATURE:

Extra sharp stylet point designed for quick and easy penetration  
Double cutting edges on the tapered distal cannula for superior coring  
Unique extraction cannula captures and retains marrow specimens  
Centimeter markings for estimated depth of penetration  
Ergonomic handle designed to minimize hand and arm fatigue  
Marked probe to verify specimen length before extraction

Ref. No. : MBNT1310

Length 5cm, 7cm, 10cm, 15cm

Sizes 8G, 10G, 11G, 13G, 14G, 15G

# Y-Star

## PTCA Y CONNECTOR

# Y-Star PTCA Y Connector

### Y-Connector Push Click System

Y-Click Connector, provides an easy to use hemostatic device for both diagnostic and interventional procedures. This ergonomically designed device significantly reduces the blood loss during interventional procedures. Among the Y-Click most unique advantages are its self closing mechanism and semi -open position, as well as its one-handed operation.

### Y-Connector Push Pull System

Y-Push Pull Connector, which is used for coronary intervention, Push Pull head knob, which ensures minimal blood and precise navigation of devices in the vasculature. A specially engineered valve with micro vertical slits which facilitate smooth manipulation of device nullify blood loss.

### Y-Connector Touhy Borst System

Touhy Borst also know a Screw Type Y Connector, which is used for coronary intervention. It has a latest screw type head knob, which ensures minimal blood adjustable Thumb Wheel Mechanism prevent over tightening, loss of bloods and devices movement when turned. Allow for insertion of different size devices.

Type	Description	Product Code
Y-CLICK SET	Click Type Y Connector Hemostatis with extension line + Torque Device+ insertion tool	YSTC9FA
PUSH PULL SET	Push Pull Y Connector Hemostatis with extension line + Torque Device + insertion tool	YSTPPS
TO UHY BORST	Screw Type Y Connector Hemostatis with extension line + Torque Device+ insertion tool	STRTB9F

# Feather™

## Inflation Device

Uses while performing balloon dilation procedures to inflate the balloon, monitor the pressure within the balloon & deflate the balloon. A luminescent analog pressure gauge, and an extremely comfortable handle.

### FEATURES

- » High quality pressure sensing element makes Inflation Device pressure
- » Pressure reading highly accurate even at extremes of pressure.
- » Excellent graduation and error minimization for reading on grid and barrel

- » Excellent eye to hand coordination by 30 ATM/Bar angled analouge pressure gauge
- » Accurate pressure reading and high visibility.
- » Feather Inflation Device ensures accurate repeatability of the measurements for several times.
- » Lighter to handle and Easy to Operate

### FEATHER™ INFLATION DEVICE

Type	Description	Product Code
INFLATION DEVICE	Feather Inflation Device 20ml 30atm/bar with Stopcock	FID2030
INFLATION DEVICE WITH KIT	Feather Inflation Device 20ml 30atm/bar with Stopcock	FIDK2030

# Inflation device (gun-type)

### KIT CONTAINS

- » Inflation Device
- » PTCA Y-Connector

- » Extention Line
- » Blunt Needle
- » Torque Device

INFLATION DEVICE WITH KIT	Inflation Device Gun-Type kit 20ml 30atm/bar with Stopcock	FIDK2030GUN

# Pivot™

Pivot™ Introducer Sheath (Femoral/Transradial)

## PRODUCT FEATURE

- » Smooth transition of guidewire-to-dilator and dilator-to-sheath facilitates easy access
- » Maintains uncompromised hemostasis
- » Small outside diameter and large inside diameter reduces the size of the access site without compromising ease of device passage

## KIT CONTAINS

- |   |                       |
|---|-----------------------|
| » Introducer Sheath (Femoral / Transradial} | » Dilator             |
| » SS Guidewire                              | » Scalpel             |
| » Introducer Needle                         | » Syringe with needle |

# Star Band™

Radial Artery Compression Device

## PRODUCT FEATURE

- » Transparency ensures complete visual control from start to finish
- » Dual compression balloons provide precise compression of the radial artery to ensure blood return-without compromising local nerve structure
- » Innovative design makes it easy to use

## STARBAND™ RA COMPRESSION DEVICE

Type	Description	Product Code
CLEAR STRIP	20ML	S-RCD-20-CS

# Shinewire™

PTFE Coated Guidewire

## AVAILABLE ON VARIOUS TYPE OF GUIDEWIRE

- » POST COATED PTFE GUDIEWIRE
- » PRE COATED PTFE GUDIEWIRE
- » HYDROPHILIC COATED GUDIEWIRE
- » NITINOL CORE GUI DWIRE
- » LUNDERQUIEST GUDIEWIRE
- » Efficient Filter for Blood Transfusion

## ANGIOGRAPHY PTFE COATED GUDIEWIRE PRODUCT FEATURE:

- » Accurate Measurement for Catheter Tracking
- » Easy to insert and Removal
- » Smooth Tip for insertion
- » Smooth Advancer for Dispensing of Guidewire
- » Angle and Straight Tip
- » Kink Resistance
- » Safety Cover for Unwanted Hazard Damage
- » Variety of sizes, lengths and shapes.

SHINEWIRE™ is a range of complete guidewire, intended for use of introduction spring winding, standard & special sizes, small diameter less grinding, specially tip forming, J-Tip, Straight Tip, Angle & other shape & depth marking.

# Shinewire™

## Hydrophilic Guidewire

### PRODUCT FEATURE:

The stainless steel/nitinol guidewire has a hydrophilic coating and is available in multiple sizes.

Hydrophilic coating that provides ultra slippery for maximized catheter/stent track ability.

Ultra-elastic kink – resistant Nitinol core providing good torqueability.  
Available with floppy straight tip, and angled tip for negotiating awkward located ureteral orifices.

Excellent radiopacity for clear visualisation under x-ray.

# STARKIT

## Pressure Motoring Line

Pressure Monitoring Line is non expandable PVC Tubing with a rigid wall & non rigid wall thickness which will ensure high quality wave forms with improved clarity. Available with both male-to-male & male-to-female connectors from 10cm to 200cms in length.

### PRODUCT FEATURE

- » Small bore high pressure extension line.
- » Suitable for high pressure monitoring

- » Provided with male luer lock and female luer lock
- » Luer lock compatible with all standard equipment.
- » Luer lock connectors provide secure fitting.

### STARKIT PRESSURE MONITORING LINE

Type	Length	Product Code
PRESSURE MONITORING LINE	50CM	PML50
PRESSURE MONITORING LINE	100CM	PML100
PRESSURE MONITORING LINE	150CM	PML150
PRESSURE MONITORING LINE	200CM	PML200

# STARKIT

## STARKIT Extension Line

Extension Line with 3way stopcock is to be used with any of the Various Infusion or transfusion devices in order to allow for attachment with any special or general purpose medical device. In order to improve ease of use also to provide an alternative channel for introduction of medicine to the patient.

### STARKIT EXTENSION LINE

BRAIDED HIGH PRESSURE LINE	120 CM	HPL120HPB

# STARKIT

## Control Syringe

### PRODUCT FEATURE

- » Transparent cylinder enhances visual effect of gauge mark and contrast level
- » Special designed Silicone piston head and lubrication technology
- » Easy to move plunger in cylinder and generate high pressure resistance
- » Excellent eye to hand coordination
- » Lighter to handle and Easy to Operate

### STARKIT CONTROL SYRINGE

# Angiographic & Diagnostic Catheter

## DESCRIPTION

Flextrusion technology for a smooth transition from stiff proximal shaft to soft distal segment.

## Flextrusion Technology

- » Soft distal segment is designed to reduce potential for vessel trauma, allowing safe engagement and coaxial alignment in the vessel
- » Smooth transition is designed to allow for better conformity to the anatomy and more controlled distal torque response

## Design and Performance Dynamics

- » Firm Catheter shaft for users preferring a passive diagnostic catheter
- » Variety of curve styles
- » Soft primary curve to help minimize vessel trauma

## Anatomy Specific Designs

- » Left and right catheters are designed differently to meet the unique requirements of the left and right coronaries
- » Left catheter is designed for outstanding engagement
- » Right catheter is designed for excellent distal torque response when engaging the right coronary

# Guiding Catheter

## DESCRIPTION

ST. STONE guiding catheter is intended to be used in the coronary or peripheral vascular system.

### Advanced Platform Designed for Multiple Interventional Approaches

- » Designed for radial and femoral approaches
- » Soft distal segment enables you to actively engage the guide for backup support
- » Full-Wall Technology construction provides kink resistance and stable torque control
- » Full Range of Traditional and Specialty Curves

### Anatomy Specific Designs

- » Left and right catheters are designed differently to meet the unique requirements of the left and right coronaries
- » Left catheter is designed for outstanding engagement
- » Right catheter is designed for excellent distal torque response when engaging the right coronary

# Aspiration Catheter

## Item Specifications

Choice of three sizes (6 Fr, 7 Fr catheter compatibility) for different coronary and peripheral application

### Ordering Information

Product	Product code	Size	
Feather Aspiration Catheter	FAC670	6Fr	I.D. $\geq$ 0.070"/ 1.78mm
	FAC780	7Fr	I.D. $\geq$ 0.080"/ 2.03mm

### General Specifications

Usable length	140 cm
Distal tip hole length	4 mm for 6 and 7 Fr
Rapid exchange Segment	23 cm
Radiopaque marker	mm located at 40m from the tip
Positioning marker	10 cm single white mark located at 90 cm from distal tip
Guidewire compatibility	Maximum diameter 0.014" (0.36 mm)
Coating	Hydrophilic

### DESCRIPTION

- » Monitor invasive arterial blood pressure.
- » Collect blood samples.
- » Infusion drug and solution.
- » The tube is good biocompatibility and it is convenient for catheter placement due to the stiff catheters.
- » Standard Seldinger Technique.
- » Catheter and guidewire are protected by sheath.
- » Nitinol guidewire is available.
- » A straight introducer needle configuration is available.

# Arterial Line Catheter Kit

### Set Contents

- » Catheter.
- » Naturally echogenic needle.
- » Safety guidewire with a straight, flexible tip.
- » Low volume pressure tubing with arterial bio-connector or self flush

### Ordering Information

Product	Product code	Catheter Diameter	Catheter Length
ST. STONE Arterial Line Catheter Kit	STSAC18G	18G	5-50cm
	STSAC20G	20G	5-50cm
	STSAC22G	22G	5-50cm

## Urostar™

Double J Stent (Ureteral Stent)

Used to temporary internal drainage of urine from the ureteropelvic junction to the bladder. Stents are available in White, Blue & Yellow colors. Stents are available with guide wire as a kit.

**Size :** 3 Fr, 3.5 Fr, 3.7 Fr, 3.8 Fr, 4 Fr, 4.5 Fr, 4.7 Fr, 4.8 Fr, 5 Fr, 5.5 Fr, 6 Fr, 7 Fr, 8 Fr

**Length :** 8 cm - 32 cm

**Type :** Both end open and one end close (Double J), Double Pigtail, Multi loop (one end & both end),

## FOLEY BALLOON CATHETER

Ref. No. : URS16FR2W

- » 2-Way and 3-Way Foley's Balloon Catheter.
- » Made up of latex bonded with silicone elastomer.
- » Coned, soft closed tip facilitates ease penetration.
- » Large, distally located drainage eyelets enable efficient, trouble-free drainage.
- » Syringe luer operated non-return valve facilitates hassle free inflation and deflation of balloon.
- » Symmetrical large capacity balloon ensuring good sphincter action, preventing any bladder leakage.
- » Colour coded for instant size identification.
- » Sterile, individually packed in paper pouch.

### THREE WAY STOP COCK

- Pressure Handling Capability : 4.5 bar
- Universal 6% taper to make it compatible with wide range of other medical equipment.
- Arrow symbols to indicate the direction of flow
- Minimum priming volume required for correct drug administration.
- Available in Lipid Resistant / Non Lipid resistant varieties.
- Tap available : Blue, Red, White

### STARSET (I.V INFUSION SET ) with Airvent / without Airvent / with Micro Drip

I.V. Infusion Set with Airvent / without Airvent

- Smooth roller clamp for controlling flow rate.
- Approximately 20 drops/ml.

I.V. Infusion Set with Micro Drip

- I.V. infusion set for pediatric use.
- Sharp spike for ease and quick penetration.
- Approximately 60 drops/ml.

### PRESSURE MONITORING

Line & Extension Line

- Transparent Pressure Monitoring Line (with colour coded stickers)
- 6% male & female luer locks.
- Kink resistant PVC tubing.
- High Pressure tube dia : Int : (1.0mm) Ext.(3.0mm) & pressure handling capacity : 800 psi
- Low Pressure tube dia : Int : (3.0mm) Ext.(4.1mm) & pressure handling capacity : 60 psi
- Available in different sizes (cm) : 25,50,100,150,200

### BLOOD TRANSFUSION SET

with Airvent / without Airvent

- For transfusion of blood or blood components.

- Transparent & flexible drip chamber.

- Approximately 20 drops/ml

- Soft and kink resistant PVC tubing with 200 micron blood filter.

• Also available in DEHP Free.

**Further option available:**

### THREE WAY STOP COCK

With Extension Tube

- Three Way Stop Cock at one end & male luer lock at the other end of extension tube.
- High quality kink resistant tube that provides smooth flow
- Universal 6% taper to make it compatible with wide range of other medical equipment.
- Arrow symbols to indicate the direction of flow
- Minimum priming volume required for correct drug administration.
- Tube length available (cm): 10, 25, 50, 80, 100,150, 200

### NEEDLE FREE EXTENTION LINE (Mono, Duo & Trio Lines)

- Needle Free Technology to reduce bacterial contamination and improve patient comfort
- Rotating Luer lock for patient comfort
- Low priming volume
- DEHP Free PVC TUBE

### Oxygen Mask Kit

#### Oxygen Mask

- Oxygen Mask is designed for convenient oxygen therapy.
- Star lumen tube with 200cm length.
- Size available : Adult, Pediatric, Infants.

### LUNG EXERCISER Respicare

#### Lung Exerciser with Three Ball Model

- Innovative system to exercise respiration through inspiration.
- Specially designed with 3 stage chambers to provide more efficient exercise to patient at a step up basis.
- Also available in single ball model

### Nebuliser Mask Kit

#### Nebuliser Mask

- Soft, clear aerosol mask with anatomical form is ideal for long term use.
- Star lumen tube with 200cm length.
- Size available : Adult, Pediatric.

### HME FILTER

- The HME filter is used on patient breathing circuits to avoid the potential for any cross contamination between the patient and the machine.

- Dimensions: 77.0mm X Ø58.5mm

- Weight: 27.0gm (approx)

- Effective filtration area: 27.3cm<sup>2</sup>
